

小程序绑定海康摄像头步骤

- 1、将摄像头添加到萤石云帐号下 (app 或网页端都可以操作)
- 2、登录萤石云开放平台 账户中心-》应用信息 获取 AppKey 和 Secret (获取一次后可以保存到手机)

The screenshot shows the 'Application Information' section of the Feilong Cloud Open Platform. It includes fields for AppKey (with a 'Copy' button), Secret (with a 'Copy' button), Access Token (with a 'Copy' button and a note about its expiration), Token expiration time (2025-07-05 09:10:06), and a note about message subscription status. Below this is the 'Application Details' section, which lists the application name (直播摄像头), developer type (Developer), developer name (直播服务), mobile application name (直播服务), and more.

3、获取萤石云设备号和通道号

The screenshot shows the 'Device Management' section of the Feilong Cloud Open Platform. It lists various devices, including cameras and battery cameras. Two specific devices are highlighted with red boxes and arrows pointing to their 'Channel Number' column: 'IPC FK6760476' is marked with a red box and an arrow pointing to '1', and 'IPC FX1256754' is marked with a red box and an arrow pointing to '2'. The table columns include Device Type, Device ID, Device Name, Channel Number, Sub-device Count, Device Status, Insert Method, Last Online Time, and Last Online Time.
